|--------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| V1     | At first I was afraid, I was petrified<br>Kept thinking I could never live without you by my side<br>But then I spent so many nights thinking how you did me wrong<br>And I grew strong / And I learned how to get along                                     |
| V2     | And so you're back / From outer space<br>I just walked in to find you here with that sad look upon your face<br>I should have changed that stupid lock, I should have made you leave your key<br>If I'd known for just one second you'd be back to bother me |
| Pre    | Go on now, go, walk out the door / Just turn around now<br>'Cause you're not welcome anymore<br>Weren't you the one who tried to hurt me with goodbye?<br>You think I'd crumble? / You think I'd lay down and die?                                           |
| Chorus | Oh no, not I, I will survive / Oh, as long as I know how to love, I know I'll stay alive<br>I've got all my life to live / And I've got all my love to give and I'll survive<br>I will survive, hey, hey                                                     |
| Solo1  | <i>Lead guitar - 8 bars big / 8 bars quieter</i>                                                                                                                                                                                                             |
| V3     | It took all the strength I had not to fall apart<br>Kept trying hard to mend the pieces of my broken heart<br>And I spent oh-so many nights just feeling sorry for myself<br>I used to cry / But now I hold my head up high                                  |
| V4     | And you see me / With somebody new<br>I'm not that chained-up little person still in love with you<br>And so you felt like dropping in and just expect me to be free<br>Well, now I'm saving all my lovin' for someone who's lovin' me                       |
| Pre    | Go on now, go, walk out the door...                                                                                                                                                                                                                          |
